INTRODUCTION

The annual 'ALL Women Economic Forum' global retreat will see women from ALL parts of the world come together in Goa from 7th to 11th May 2015 at the scenic Goa Marriott Resort and Spa. It is open for ALL members and their spouses and guests.

With over a 100 sessions on a range of topics that surround the world of women, ALL WEF will be buzzing with energy of discussion and inspiration. To maximize leadership at ALL levels, we have a plethora of breakfast and lunch Roundtables, each led by a member. The parallel sessions will see an exciting mix of international speakers on an equally fascinating range of topics. The plenary sessions will be led by iconic keynote speakers. The award ceremonies will showcase inspiring women of excellence. The morning walks and evening nightcaps will provide the perfect setting for friendships to foster and solidarity to strengthen.

This year's speakers at ALL WEF reflect the dynamic possibilities of our times – where boundaries are merging between hitherto distinct fields and multiple new opportunities are exploding: the perfect setting for entrepreneurs to tighten their belts and take new leap of faith.

Hear from business leaders, authors, coaches, politicians, start-ups, and young icons in a range of fields on their experiences and their learnings and where they see the world going. Meet with like-minded and warm-hearted women who believe in the force of positive thinking, who have risen above all odds and are all set to share their blessings and powers with ALL around them.

Be in the company of achievers and creators. Have conversations on business, culture, enterprise, work, society, love and life in the lap of pristine beaches and natural exuberance.

Other goings-on include visiting Goa's churches and synagogues, early morning yoga and late evening prayers on the beach, Moroccan belly dancing, dinner on a cruise on the Mondovi River, leisurely chats with an astrologer. And yes, a lot more of free-flowing surprises.

Be there to be touched and transformed with a magical blend of learning and leisure.

PLATINUM PARTNER

GOLD PARTNER

SILVER PARTNER

I welcome you to the 'ALL Women Economic Forum' 2015. The ALL WEF Global Retreat in Goa is designed as a scintillating forum for stirring thought leadership among women from ALL strata of society, from ALL spheres of work and from ALL parts of the world.

Just the array of countries that will congregate in Goa in May is mindboggling – we are expecting over 300 delegates from 23 different countries ! It's a never-before-seen moment in history and one that India, the most exciting economy of our times, is leading with gusto for ALL.

The speakers' range is extensive – reflecting the diversity of our influences, interests and ALL that we imagine ourselves to be. Business leaders, Corporate Coaches, Entrepreneurs, Authors, Icons, Political Stalwarts, Policymakers, Ambassadors, Media personalities et al will come together at the ALL WEF to create a truly vibrant atmospheres of discussion, debate and millennial thoughts.

From the humble conception of ALL WEF to its eventual grand and majestic coming together, the 'Hand of God' is evident. Like it was said in "The Alchemist," the Universe is conspiring to make it happen. It is the blessed realization of a dream. It is the sacred consummation of a desire. It is the need of the hour. It is the call of the future. It is an idea whose time is Now.

The themes of this year reflect the new defining wave of our times: Women as Harbingers of Change. Our shared world, torn by growing strife, needs resuscitation by the forces of harmony and happiness; forces that women innately embody and seek to perpetuate. Strengthening thus women's leadership and entrepreneurship is bound to galvanize women as proactive agents of change for self and society on a never-before seen level and scale.

The choice of Goa for this momentous occasion is ideal. Known for its cosmopolitan culture, free-spiritedness and flexibility, it's long been a global hub for creators, thinkers, artists and culturatti alike. Goa celebrates, and we do too, ALL that is new, adventurous, dreamful, visionary, uplifting, and miraculous. It was the apt destination to celebrate cross-continental friendship, creative thinking and the blossoming of the feminine in every woman and man.

At ALL, we believe that the *nouvelle vague* of women as harbingers of change is destined and designed no less by the forces of the Universe itself. For it is time to reclaim the long-lost love in our lives, the solidarity and sisterhood that every woman and her family should have much of, and the beauty and generosity that our world needs much more of. ALL is not just an association of like-hearted individuals – it is a movement of women toward their truer selves and their stronger potentialities. The ALL WEF is the blessed path on that vision. And so ALL WEF is not just a forum – it is the womb of a new world order.

Come, experience this new awakening and lead this togetherness in motion. With ALL of you, this dream is destined to be.

Dr. Harbeen Arora
Global Chairperson, ALL Ladies League (ALL) & Women Economic Forum (WEF)

Women: The Harbingers of Change

Women will lead the new world order. As more women join the workforce, as more women undertake leadership roles, as more women lead political fronts, as more women enter education, as more women connect with more women, as more women feel empowered to communicate and express, as ALL that happens, the world is bound to change.

To understand the undercurrents of change through a cross-sectional perspective, ALL WEF has brought four strands of thought to focus on, in order to help women better focus on all that they do and strategize more consciously on future objectives and areas of growth.

These four strands will help us vibrantly explore ourselves inside-out. By sorting ourselves from within, helped by the sessions on "Work, Life, & Worldview"; by understanding our various challenges from sessions on "Security & Vulnerability"; and by understanding the dynamism in our daily worlds driven by "Technology, Innovation & Communication" as also "Entrepreneurship & Growth," we will gain valuable perspectives on how to realign ourselves to our purpose within and to our missions ahead with far more immediacy and innovation, and far greater consciousness and creativity.

Work, Well-Being & World View

Achieving work-life balance is amongst the foremost challenges for women professionals and entrepreneurs globally. Since women like to succeed equally in their personal lives and look after their loved ones be their spouses, parents, children, friends or elders, sessions will explore various facets of the challenges faced by women across countries and successful strategies evolved to overcome them. In order to encourage larger number of women to proactively lead and fearlessly engage, it is equally important to develop a larger social consciousness vis-à-vis the changing needs and necessities of women who find their energies scattered and stretched thin as they perform multiple roles at work and at home. How can we foster an ecosystem that helps women value their professional lives without being conflicted about issues at home? Perhaps easing off the social, mental and emotional pressures on the women will help them grow financially and scale the echelons of power and be ever more present in the C-suite.

Security & Vulnerability

A family is as powerful as its women are. Same is true for a society, for a country and for a global order: they can only be half as powerful as they could be if half of their population of women continues to remain vulnerable, scared, hungry, sick, illiterate, oppressed and exploited. While we all agree that we need to create a healthier and safer environment for women to grow and prosper, there are troubled news' of rapes, abductions, trafficking from all four corners of the world. The global community needs to come together in addressing this grave imbalance and injustice that threatens the very force of sustenance and love in our world – the woman.

Technology, Innovation & Communication

New technologies are empowering our lives and making them 'smarter.' How can we maximize their potential for making smarter choices in individual businesses and also for resolving some of the world's intractable problems like lack of education and healthcare? Technology is also giving us access to big data and cross-sectional analytics that can open up new dimensions for expanding business and strengthening impact of social leadership. Sessions will discuss some of the most worthy innovations that are shaping our world today and immense great

promise to change the future for millions through the digital revolutions that are changing the way we live, communicate, educate, learn and connect.

Entrepreneurship & Growth

Emerging world economies are looking for more growth and development; and the only way to allow each and every human to fully participate in shaping up the world economy is via promoting entrepreneurship. Rising start-ups & entrepreneurship will not just help with creating a new generation of job-creators but will also rev up the sluggishness afflicting economies around the world. How framing friendly policies for business and start-ups can foster not just greater growth in countries but also simultaneously empower women and youth in lasting and sustainable ways.

Focus Country : India

Engaging with India: Challenges and Opportunities

We all recognise India as the fastest growing economy in the world and one that can lift the developed economies out of their current recession. Everyone wants to come to India and participate in its growth.

Yet the mind-boggling diversity and lack of predictability is a challenge as much as it's an opportunity. While India has the world's largest poor population yet it also has a 350 million middle class, with huge buying power, larger than the United States. India has three times the number of mobile phones and 15 times the number of smart phones in our country compared to the US. It has just about every car manufacturer present here making automobiles for India and the world. India is also the largest growing market for luxury goods.

And of course, the beautiful and ancient Indian civilisation has much more to offer spiritually. People from all over come to India to imbibe its way of living: having humility, hospitality, faith, resilience, selfless service, courage in face of adversity and the ability to smile and give happiness even when one is poor and bleeding inside. That's India strength and India will lead in not just as an economic power but in its ability to raise the world out of its current depressive and the I-me-mine attitude.

Situated in the west coast of India, Goa is one of the most popular designations, known for its picturesque beauty, attractive beaches, famous architectural temples, grand festivals and its rich Anglo-Indian heritage.

Better known to the world as a former Portuguese enclave on Indian soil, Goa presents a somewhat different representation of the country to foreign visitors owing to its magnificent tourist attractions like Bom Jesus Basilica, Fort Aguada, a Wax Museum on Indian culture and a heritage museum. Also, the Churches and Convents of Goa have been declared a World Heritage Site by UNESCO and temples, mosques and wildlife sanctuaries provide diversions from the beach.

The golden, palm-fringed beaches spread along the state's 105km coastline attract 2 million tourists every year from across the globe. Goa is India's richest state with a GDP per capita two and a half times that of the country as a whole.
