Message

First of all, I heartily congratulate All Ladies League (ALL) on this visionary global summit- the Women Economic Forum where women entrepreneurs and leaders from all parts of the world have come together for serious discussions which will create a better world for us all.

This year's theme "Women-The Harbingers of Change" is of great significance. I fundamentally believe that the coming together of women in solidarity is a very powerful idea and one that is much needed in our modern times. Today when our environment is facing the brunt of myopic development, I believe that women entrepreneurs, leaders, homemakers, and women in all spheres can play a big role in opening our minds towards our environmental duties and drive the change and revival of our environmental consciousness.

The subject of how young politicians can lead the change is very important. I believe because it has the potential to do things differently. The new generation is free of the baggage of the past and is living in a dynamic world where technology and communication are changing our realities by the minute. The whole world order too is also changing indeed. I believe that the rising new breed of young politicians will indeed show a new path of cooperation and collaborations in an interdependent world order.

I am so glad to see that so many women from all over the world are also coming together in this movement of the All Ladies League to precisely get more involved in order to evolve a new world order for women.

I wish each and every one of you the very best and I hope to be there in person with all of you for the next edition of the Women Economic Forum.
